W = Woman

1

W One of my colleagues at work is a swimming addict. She has to go swimming every day.

I Where does she swim?

W In the local pool – there's one quite near work.

I How long for?

W About half an hour. She does 40 lengths.

I 40 lengths! Wow! What about weekends?

W Yeah, weekends too – Saturdays and Sundays – and then she does at least an hour, I think, or maybe more. I mean, she's definitely addicted because when she can't go for some reason then she gets really anxious and stressed.
